D. BEECHER EMITH, Attorney at Law, One Commerce Square, Memphis, Tennessee, furnished the following information:

Referring to his notes contained in a file, EMITH determined that certain facts had come to light in connection with the proposed business arrangement between FRED PRO, for Air Cargo Express, and VERNON PRESLEY, acting for MAVIS A. PRESLEY.

In connection with this account he has reviewed his file and located a certain memorandum prepared by him relative to the male and lease arrangements for the Lockheed Jetstar. On August 11, 1976, Mr. PRENLEY (VERNON PRENLEY) called and told EMITH, according to the memorandum, that the income statement, abbreviated, was being prepared for AGN Financial Corporation and should be ready in the late afternoon of the same date, August 11, 1976.

Mr. PARTIK, the accountant, has prepared the financial statements and they are ready to be sent to ACM Financial Corporation in connection with the sale and lease arrangements for the Falcon airplane.

The reason for this is that the mortgage amount on both planes, that is the Lockheed Jetstar and the Falcon, is of a greater value than the actual value of the airplanes. Therefore, corroborative information of a financial nature is necessary for the leasing group.

FRITH also had telephonic conversation with FREDERICK PRO, according to the notes in the file, PRO told SMITH that the 121 maintenance certificate would be delayed. PRO had received the funds for the upgrading on July 18, 1976, but there is a purchase delay for the equipment and there is also a delay in the Federal Aviation Administration procedures. Efforts are being made to get the deadline extended to September 1, 1976.

In addition ACHTMANN, according to MITH by referring to his notes, and asked PRO to take out a \$950,000 life insurance policy as a gredit.

interviewed on \$/3/77	"	بو

by	0 1 3 Date dictated <u>\$/7/77</u>	

MZ 87-16994

The notes reflected that PMO would be at the Mayfair Hotel at 9:00 that evening (date unknown) and could be reached at telephone number 212-288-0800.

MITH had in his possession a copy of an article from the Wall Street Journal dated October 19, 1976. The Wall Street Journal is a newspaper which reports financial news of the country.

The article entitled "Uncollectible Drafts on West Indian Bank Flood U. S. and Total Hillions of Dollars." The article notes that the securities which are cashier's checks and certificates of deposit were issued by the Hercantile Bank and Trust Company which was formed two years ago in Kingston on the island of St. Vincent in the British West Indies.

The article notes that the bank, which never grew beyond a one room office, apparently is closed and its founder and a few other men are the targets of a spreading investigation by the U. S. Department of Justice.

This, to MITH's knowledge, is the same bank which issued a cashier's check to the insurance company in Hollywood, Florida, for insurance on the Lockheed Jetstar. This check was used by PRO to pay insurance agent in Hollywood.

Referring to his notes, SMITH noted that FRED PRO called on August 27, 1976, at 5:45 P.M. This necessitated SMITH remaining in his office after hours. The basis of this, as SMITH recalls, is that BOY SMITH, a business associate of FRED PRO, called BEECHER SMITH at his office. He told BEECHER SMITH that FRO would call him in the next two hours and for SMITH to be available.

The motes reflect that PBO during the conversation referred to the first checks which ENITH said were the ones given at the time of the contract signing by PBO relative to the first and last payments of the Lockheed Jetstar as well as the \$40,000. PBO claimed that these checks were not honored because he had just bought five \$80's, which are Boeing aircraft. The notes further reflect, as ENITH recalls, that PBO told him that he (PBO) had \$800,000 eversess.

MR 87-16994

The first and last payments of the checks were to come from funding and also the premium was to be applied in this contract.

"ANDY" MANNARINO of AGM Financial Corporation had said the money was to come from funding and would be done within 48 hours. However, the money never did come through.

PRO told him the funds had to come from overseas and PRO had to wire overseas at New York. The funds ultimately from overseas would come through Miami.

In the conversation PRO and SMITH discussed the fact that the upgrading was costing as much as the payments and the funding. PRO claimed he had to pick up all of MANNARINO's expenses, \$10,000 worth of hotel bills and the like in New York. PRO was claiming that he had so many expenses that he was going to lose money.

PRO also said that there would be no more bad checks as they all would be good from then on.

Referring back to the upgrading and costs, SMITE recalled that PEO was using PRESLEY's mane all over the country trying to get credit. He had received calls from various banks concerning PEO and he believes VINTIED regarding financial ventures underwritten by FRESLEY.

He recalls that JAMES EMITH, Vice President, City Corporation of New York, a financial institution, had contacted him regarding the fact that PRO, MANNARINO, and WINFIELD had gone to that company to get funding. EMITH would probably have the background of finances of Air Cargo Express.

Sometime immediately preceding Labor Day of 1976 PRO called EXECUTE MITH and told him that he would have certified cashier's checks for both months' rent on the Jetstar with him. He was coming to Memphis and would be at the airport on Monday, Labor Day.

PRO said that the Irving Trust Company would fund the loan and the monthly payments are to be less than \$20,000. \$19,000 payments are anticipated but PRO would call back later and confirm.

On October 1, 1976, according to motes, RECHER SMITH called Air Cargo to ask PRO for the keys to the plane. PRO called back at 12:20 P.M. and said he was getting a commitment that date and he would call back later in the afternoon. On October 4, 1976, PRO called VERNOM PRESLEY. This was on a Sunday night. He told PRESLEY that PRO had \$200,000 coming in from overseas on certificates of deposit. PRO also said that one more test flight was required and the plane should be qualified within ten days.

On November 1, 1976, LARRY WOLFSCH of Commercial Air Transport Sales, Mismi, Florida, called. SMITH shift that he operated Leasco which is similar to Commercial Air Transport and Leasco is operated by both WOLFSCH and MIGEL WINFIELD.

WOLFSON on November 1, 1976, told MNITH that he had received a Telex message that day from a fellow maned KITKER. This individual whose first name was PHILIP was affiliated with Seven Oak Finance Company. The message referred to a letter of credit involving the Big Stone Corporation and the number written down by MNITH was SO-N-304. The Telex message originated from Oppington, Kent, England.

WOLFSCH inferred to MHTH that he wanted to "bail us out." MHTH recalls that this was relating to the fouled up mess that FRO had created through his imability to honor the contract.

Reviewing his notes MITH could not recall the purpose he had written from the words "Mational Vestminster Bank, S. O. F. L. 715-6371," He felt that WOLFFON could probably clarify this review of MITH's notes.

Uncollectible Drafts on West Indian Bank Flood U.S. and Total Millions of Dollars

By HERRIT G LAWRIN

Bieff Reperier of THE WALLSTERET JOTERAL

Popurts of millions of dollars in uncollectible cashier's checks and certificates of deposit drawn on a tiny West Indian bank are flooting Federal Eureau of Investigation officer throughout the U.S.

The securities were issued by Mercantile Bank & Trust Co., which was formed two years ago in lungatown, on the island of St. Vincent in the British West Indies

The bank, which never grew beyond a energorn office, apparently is closed, and its founder and a few other men are the targets of a spreading investigation by the U.S. Justice 15-partnions.

Results of the investigation are being presented to a federal grand jury in Charlotte, N.C., where the bank's checks first appeared in the U.S. Raboteau Wilder, an assistant U.S. Attorney handling the case, says it may be February or March before the grand jury takes any action.

""We already have 12 volumes of FBI case reports," Mr. Wilder rays. "It's enough to make you throw up your hands And a lot of (Mercantile Bank's) paper is still in the hands of unsurupulous people trying to plerge it."

A few days ago, the Securities and Exchange Commission placed Mercantile Bank on its "foreign restricted list," which means that registered broker-dealers can't legally handle any of the bank's necurities.

Federal investigators are reluctant to discuss details of the case, but a picture emerges from various sources of a bank without assets that nevertheless enjoyed a phenomenal run of heavy patronage.
"Tess of Nillions of Dellars"

One FBI source says the case involves questionable enticks and CDs "in the tens of smillions of dollars." One FBI memorandum to harders in June said that Louisiana banks "have wheepted over \$99,000 in cashier's checks," drawn on the St. Vincent bank. The thick of several letters of credit and CDs in the U.3 and elsewhere.

One burkers says he learned of a letterof tredit for but a million dollars from the i St. Vincent bank. And a Wiscon in oest collection igency, F&H Acceptance Corp., says & may have lost as much as \$260,000 becruse of incollection makes a success issued by the bank. The size of the suspected fraud has prompted renewed concern about banks without assets or supervision that are appearing regularly on certain Caribbean influels. One federal hanking official says, "It isn't any secret we're having problems with banks in areas such as the Cayman Islands and the Netherland Antilies. It requires almost inchang to establish a bank in these areas and there isn't any incentive for the governments to police these banks" because they dun't operate legally.

At Vincent apparently is in a class by itself. Marshall Langer, a Miami, Fla., iswyer and suther of a book on Caribbean and etter tax havers, says: "St. Vincent is one of the few places left in the world that has ab-solutely no banking regulations. People are pedding banks there—which are corpurate shells without capital—for \$15,000 to \$57,600 apiece It's a stinky situation."

Ivor Martin, St. Vincent's financial secretory, correctes that banks registered on the falled but which don't conduct local business are integritated. "We plan to lighten by printion to minimal is more difficult" to form these "offshure" banks, he says Frances, Employee Are Good

Mr. Martin said in a telephone interview that he didn't know if Mercantile Bank was still operating from its Kingstown office, where the telephone has been disconnected, where the telephone has been disconnected, where he said the bank's founder "left about three or six months ago" and some of the other employes is around.

An FBI memo identifies Raymond Staras as the bank's founder and says the Louisiana checks were funciled through a Baton Rouge morigage broker named Billy Burter. Mr. Staras also is from Baton Rouge but hasn't any telephone listing there. The phone at Mr. Hunter's merigage firm has been disconsisted.

In 1972, Mr. Starns consented to an injunction in a civil suit after the SEC had charged him in Dallas with accordies fraud in connection with the securities of Graphic Arts Data Systems Inc. Another efficer in the St. Vincent bank was identified as Phil Prizer Jr., who was once president of a small stock insurance company, American

Allied Insurance Co., that went into receivership in 1965 in Minnesota.

In Milwaukee, Carl Humes, manager of FAH Acceptance, says his predecessor, Michiel D. Smith, recently left the company, "He destroyed originals of all company thecks and cleaned out five file cabinets, destroying everything," Mr. Humes says.

With Mr Smith's departure, F&H discevered that a number of cashier's checks from the St. Vincent bank had been deposited to F&H bank accounts. Using those deposits. Mr. Smith allegedly bought and sold debt paper and disappeared with an undetermined amount of cash. "We figure he got away with \$200,000," says one assupany assures.

Recording to FAH officials, Mr. Smith is in Canada. A relative in Vancouver confirmed that Mr. Smith was living there, but efforts to reach him for comment were unsuccessful.

The name of the St. Vincent bank apparently has caused some confusion because of similarities in name with other banks. One is Mercantile Bank & Trust Ca. (Caymans is Mercantile Bank & Trust Ca. (Caymans Ltd., a unit in the Cayman Islands of International Bank, Washington, D.C. Micholes Duggan, president says, "We've seen about a half-dozen checks directed to us for collection because U.S. banks have confused us with the St. Vincent bank. The antiler's ethecks, for amounts up to \$3,000 each, same largely from banks in Pennsylvania that accepted them for deposit, he said.

Meanwhile, the International Bank unit has received a report from the St. Vincent government on Mercantile Bank & Trust there. "We understand," says Mr. Durgan, "R has leaved drafts that haven't been ho-

mered."

RICHARD R. NEVILL, Chief, Air Carrier District Office Number 32, U. S. Department of Transportation, Foderal Avaiation Administration (FAA), Miami International Airport (HIA), Miami, Florida, was interviewed regarding his knowledge of the background and operations of Span-East Air and Air Cargo Empress (ACD). NEVILL was advised of the official identity of the interviewing Agent and the nature of the interview. NEVILL stated that he was familiar with Span-East Air and ACE and advised as follows:

The predecessor of Span-East was a company in Detroit, Michigan, culled Zentor Universal, which originally had above ton C-/C simplemes. Subsequently, Zentor Universal, reduced for investors of planes to five DC-6's and the common a sold to PAUL SHAMAI and IENIEG LANGER. HAVILLE at this time happines to be with the MAA in Detroit. Thus, he was familiar with the background of Span-East.

After Zinter was cold to SCODERI and LABRER, they charged the rank of Eucher on the FML epocating cartification to Spin-leve Airlance (SEA), which he owned by Spin-Bust, Incorporated. In 1872, SCOTERI and LABRER moved Spen-Dast to the MA, Missi, Florida.

NEVILL was subsequently transferred by the FAA to his present post in Minni. In 1975, EDA was in dire financial straits and had reclaimed their inventory to two PC-6's. A requirement for retaining a commercial operator's certificate as that issued by the FAA to SEA, is that the pirline company file a financial statement with the FAA. In 1975, SEA was several months late in filing their financial statement.

LETHER had either been bought out by SCUPERI or clse had left in disgust. NEVILL thought that he may have been an etterney.

In late 1975 or early 1976, SCUTERI informed MEVILL that he had found an "angel" to take care of SEA's financial problems and shortly thereafter, in early 1976, FRED PRO surrived on the scene. PRO supposedly took over 50 percent of Span-Part, Incorporated, and SCUTERI, with the remaining 20 percent, was to handle only sales.

PRO immediately wanted to change the name from SEA it Air Cargo Express. When FRO learned of the time, paperwork and expense involved, he had SEA's FAA operating certificate changed on March 15, 1976, to read Span-East Airlines, doing husiness as Air Cargo Express, inasmuch as this was much less difficult and involved then completely changing the name. PRO also got a STC, which is a FAA supplemental certificate, to allow SEA to operate Convair airplanes.

PRO subsequently went into the leasing business. FRO thought that Joustans were het items for leasing purposes, and soft at one time informed kEVILL that he had sin or deven Johnton out on least around the country. Succeeded later, DIMES FROMERY'S Jouston, NYMEP, turned up puriod at the INI dock at INA. It was there for sometime and them it disappeared.

Arouse this thee. SEA was again having severe financial problems were so seems what ELA was given one of two alternatives by the PAA. LIA could either voluntarily surrender their operating contributed or have the FAA revent it. If the FAA revoked it, it would have ment that the individuals employed in a memory and conscity by SEA could not be employed by other at lacts. Thus, on September 7, 1975, SEA voluntarily surrendered their operating certificate, number CE-24, citing fire sold reasons. When it was surrendered there was one SU-6 left on their operating certificate.

The FAR 121 Program sets forth operating rules for commercial aircraft carriers which operate large turbine aircraft. In order for an airplane to come under this program, the sarline company must place the aircraft on the operating specifications on their certificate. NEVILL stated that PRESENT's Jetstar did not come under this program insemuch as FRO never made any attempt to put the Jetstar on SEA's operating certificate.

The Port 121 Inspection and Operational Flight
Proving Test refers to the inspections and proving flights
that an airline must conduct on an aircraft which is placed
under the operating specifications of their certificate. If
an airline places an aircraft which has already been in service
for scueone else on their operating certificate, the airline

101 87-38971 2 -

must conduct fifty hours of proving flights in the aircraft and a representative of the FAA has to be present aboard the aircraft during these flights. This requirement is contained in 1/2 Code of Federal Regulations 121.163. NEVILL sected that ACE or SMA did not conduct any proving flights in the Lockheed Jetstar belonging to ILVIS PRESLEY.

IMPILL advised that before SEA could do any work on the Jetster. which would qualify it to obtain credit under the PAR 121 Program, the Jetster would have had to have been placed under the operating specifications of SFA's contificate. This was not done by FRU or SEA. IMPILL stated that PRO or SEA may have done some work on the Jetster, but they received no credit from the PAA since the plane was not place on that's contidinate. Havill stated that PRO or SEA never filed may done wis, papers, inspections, or mything the reserious, the Lockscot Setster, registry N777EP, serial moment 500%, aclonging to PLVIC PRESEEY.

We Director of Operations for SMA was Identified as a nice, horsel, older isofvicual. The Chief Filot for SMA was willian botten, who is now the Director of Operations for Floring International Airmays.

nevill, also advised that Dallas Airmotive is a combified repair station, involved mostly in rebuilding aircraft engines, and it is located at Love Field, Dallas - Fort Worth, Texas.

Memphis, Tennessee July 26, 1977

RE: FREDERICK W. P. PRO; KLVIS A. PRESLEY - VICTIM INTERSTATE TRANSPORTATION OF STOLEN PROPERTY - FRAUD BY WIRE

Vernon E. Presley, father of Elvis A. Presley, entertainer, has power of attorney to act for his son in business transactions. Acting in this capacity, he entered into a contract with Frederick N. P. Pro, President of Air Cargo Express, Incorporated, Mismi, Florida, and others wherein Presley's plane, a Lockheed Jet Star, would be sold. It would then be upgraded to satisfy Federal Aviation Administration requirements and leased back to Presley for subsequent sub-leasing to Air Cargo Express.

When Pro was pressed by Presley to complete his end of the contract since a lack of funds seemed apparent, Pro indicated he had funds abroad. Shortly following this confrontation, a Telex was received at the bank in Memphis, Tennessee, handling the account of Elvis Presley. A clear Telex of the message follows.

It was PRO who arranged for PRESIET's Jet Star to be brought to Mismi in June, 1975. The plane was kept at the airport near the six Cargo Supress effice and was used on several occasions by PRO.

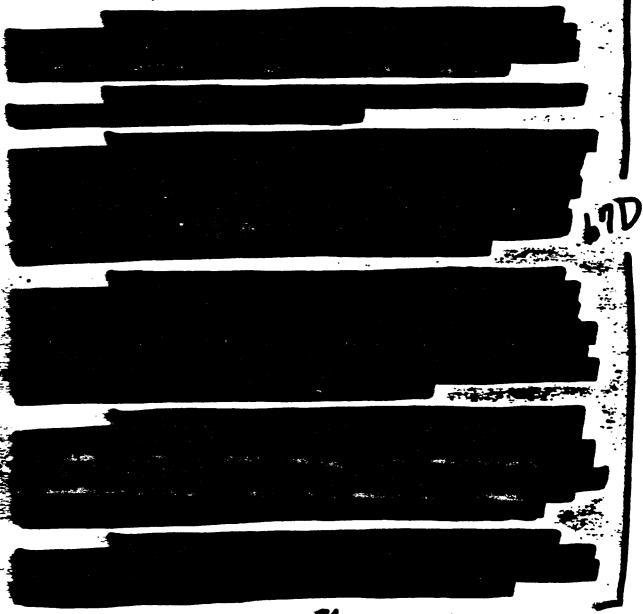

It was moderstanding from PRO that there was no need to make any payments on this plane. FRO had evidently told FRESLEY that funds for the payment for the third month would be coming from the Bank of America in California. The money allegedly was coming in from England through PHIL KITZER, who had something to do with the Herchantile Bank and Trust Company located in British West Indies.

•

So far as the PRESLEY plane was conserned, it was kept at Mismi for a period of time and then was released to PRESLEY after a representative from Memphis came and signed for the little work which had been done on the plane. There was not such repair work done to the Jet Star.

Bureau designated case entitled PHILLIP KARL KITZER, JR., ITSP - TTP, OO: Indianapolis, as Bureau Special with title "OPFOPEN" (Operation Fountain Pen). This case, involving travel with subject KITZER by Indianapolis Undercover Special Agents, has generated a great volume of information concerning a group of international venture capital brokers dealing in fraudulent securities drawn on "off-shore" banks. Until the present time, while the covert operation was still intact, overt coverage of leads in most of the violations uncovered have not been set forth to protect the Indianapolis operation.

Bureau has advised that all leads set out in this matter be covered immediately. As set forth in previous communications, successful prosecution in these cases is heavily dependent upon a coordinated effort in the Bureau and various USA's/ Strike Forces involved.

U. S. Department of Justice has advised that prosecution in cases of this type in the past has been compromised by promises of immunity in one District adversely affecting similar prosecution in another District. To escape this risk in these related cases, Indianapolis is coordinating the investigative phase and below designated Strike Forces are jointly coordinating the prosecutive effort. In this regard, copies of subsequent reports should be directed to Indianapolis, USDJ Fraud Section, and Strike Forces as set forth in copy count, as well as to the interested USA/ Strike Force in Office of Origin.

Data compiled by Indianapolis in this operation, where a Federal violation would appear to exist, is being furnished herein and the apparent or logical Office of Origin is designated. Presentations to USA/Strike Force Attorneys and service of any subpoenas or warrants should be coordinated through Indianapolis.

Interviews conducted should protect the Indianapolis undercover operation.

ELVIS A. PRESLEY - VICTIM

Character: INTERSTATE TRANSPORTATION OF STOLEN PROPERTY - FRAUD BY WIRE:

TOP THIEF PROGRAM

VERNON E. ARESLEY, father of ELVIS A. PRESLEY, entertainer, has power of attorney to act for his son in business transactions. He entered into a contract with PREDERICK N. P. DRO. President, Air Cargo Express. Inc., (ACE), Miami. Florida, and others wherein PRESLEY's plane, a Lockheed Jetstar, would be sold to WVP Leasing Company, New York City. The plane would be up-graded under FAR 121 Maintenance Program to satisfy Federal Aviation Administration (FAA) requirements. This up-grading would be supervised by World Aircraft Exchange (WAE), Boston, and the plane then leased back to PRESLEY and sub-leased to ACE. In connection with this, WAE authorized and WWP approved for payment funds spent on the up-grading of the plane in the amount of \$341,500. PRO at the time issued three checks against the account of ACE on the First National Bank of Coral Gables, Florida, totaling \$75,510. All PRO's checks were returned by the bank. Subsequently, a second similar contract with regard to a second airplane of ... PRESLEY's was initiated and PRO presented three more checks totaling \$95,000, mone of which were honored by the bank.

ANGELO GANANNARINO of AGM Pinancial Corporation, Miami, Plorida, replaced WWP in the second contract which was mullified through Violation of contractual terms. Mational Bank of Commerce, Memphis, handling PRESLEY's accounts received Telex message from Seven Oak Finance Limited, England, at the request of PRO reflecting ACE has an account in excess of \$500,000. Attorney for PRESLEY made available copy of "Wall Street Journal" describing "offshore" bank operations including Mercantile Bank and Trust Company, Kingston, British West Indies. PRO was given checks totaling \$167,000 by PRESLEY for work and tests involving PRESLEY's plane which work has subsequently been determined was never performed. PRESLEY also gave MANNARINO a check for \$55,830.36 on the second contract. PRO told PRESLEY he was going to England

ENCLOSURES:

Enclosed for Fraud Section, Criminal Division, U.S.
Department of Justice; Chicago, Illinois, Strike Force;
Cleveland, Ohio, Strike Force; and U.S. Attorney, Southern
District of New York, one copy each of Memphis report of
SA dated August 2, 1977.

DETAILS:

Investigation in this case was predicated upon a request received from the United States Attorney's Office (USA), Western District of Tennessee, Memphis, Tennessee, wherein they had been contacted by attorneys for ELVIS A. PRESLEY, an entertainer, indicating they felt a violation of Federal law had taken place. They identified the principal as PREDERICK M. P. PRO and their client, PRESLEY, as the victim losing in excess of \$400,000.

PRESLEY owned a Lockheed Jetstar airplane which had an outstanding indebtedness of over \$600,000 as of June, 1976. This plane was not being used by PRESLEY in his entertainment business and he therefore was making payments on an asset that was not generating any return on its capital. In addition, attempts to sell the aircraft had resulted in no success.

In June, 1976, a meeting was arranged which included the following people:

MANS ACHTHANN, President, WVP Leasing Group, New York City.

MIGEL WINFIELD, President, and LARRY WOLFSON, Treasurer, Commercial Air Transport Sales, Miami, Florida.

FREDERICK P. PRO, President, Air Cargo Express, Inc., Miami, Florida.

GABRIEL ROBERT CAGGIANO, Attorney and Corporate Officer, World Aircraft Exchange, Boston, Massachusetts.

RAYMOND W. BASZNER, Vice President, World Aircraft Exchange, Boston, Massachusetts.

D. BEECHER SMITH and CHARLES H. DAVIS, Attorneys for ELVIS PRESLEY, Memphis, Tennessee.

WINFIELD, PRO and CAGGIANO had promoted the idea of a sale-lease program involving the sub-leasing of the Jetztar and including an up-grading of the plane. The transaction would be the sale of PRESLEY's Jetztar to WWP Leasing Group. WWP in turn would borrow enough money from the Chemical Bank of New York to cover both the paying off of the present indebtedness on the aircraft, over \$600,000, and also upgrading this aircraft in order to qualify it for Federal Aviation Regulation (FAR) 121 Maintenance Program. This up-grading had an estimated cost of \$350,000.

Upon completion of the up-grading, the plane allegedly would be valued on the open market at approximately \$950,000. With WWP purchasing this plane, the contractual agreement would continue in that PRESLEY would then lease the plane back for \$4 months at a monthly rental of \$16,755 and he in turn would sub-lease the plane for \$17,755 per month for \$4 months to Air Cargo Express (ACE). This way PRESLEY would profit by \$1,000 a month and, at the end of the seven year period, he had the right to buy back the plane for \$1.00. Mowever, the agreement would allow ACE to continue another three years paying a reduced rental of \$10,000 per month.

BASZNER, who was at the meeting held on June 24, 1976, was an agent for World Aircraft Exchange, Inc., and was supposed to be responsible for supervising the up-gradings and modifications of the aircraft to qualify for the FAR 121 Maintenance Program.

When the contract was signed on June 25, 1976, VERNON PRESLEY, acting for ELVIS PRESLEY, paid two checks to WYP both in the amount of \$16,755 representing the first and eighty-fourth monthly rental payments. PRO wrote three checks to ELVIS PRESLEY, two in the amount of \$17,755 each representing the first and eighty-fourth monthly payments, and the third check in the amount of \$40,000 representing a premium for the Sub-lease. All three checks of PRO, on the Plagship, Pirst National Bank of Coral Gables, Coral Gables, Florida, were

against the account of ACE, Inc. All checks were returned by the bank as none were valid.

It was at this time that PRO took the keys to the Jetstar and_his copies of the documents of the lease, PRESLEY took PRO's checks and CAGGIANO took his copies of the documents and the meeting was adjourned.

Subsequently, PRO told PRESLEY's attorney that the money to cover these checks was coming from Jamaica or someplace else and that there had been an error in the transfer of the funds. The checks were to be redeposited, but, upon so doing, the checks were again returned by the bank without payment.

The Chemical Bank of New York refused to accept the lease agreement, prepared their own agreement and finally this most recent contractual agreement was signed.

On July 16, 1976, VERNON PRESLEY, FRED PRO, WIGEL VINFIELD and ROBERT CAGGIANO met at the National Bank of Commerce, (WBC), Memphis, Tennessee, whereupon a check in the amount of \$330,048.33 was accepted by NBC, drawn against the Chemical Bank of New York and was deposited to the account of ELVIS PRESLEY. This was the remainder of funds based on the contractual leasing agreement which allowed the paying off of the \$600,000 mortgage on the plane over and above the above-stated figure.

At the same time, invoices on the stationery of World Aircraft Exchange were presented with recommended approval for payment by WWP Leasing Corporation. They were as follows:

\$17,500 to FREDERICK P. PRO, Air Cargo Express, for certification for FAA 121 per agreement and for operational setup and flight management;

\$32,000 payable to Air Cargo Express, Inc., and Dallas Airmotive for the purchase of Part 121 Avionics Equipment, flight data recorder, eackpit voice recorder, ground proximity warning indicator and Part 121 checks;

\$129,500 payable to Trans World Industries, Inc., for Part 121 maintenance systems, certification and modification, and Cardex system;

1/8

\$45,000 payable to World Aircraft Exchange, Inc., for Part 121 Certification and Aircraft Modification and Update Program;

\$117,500 payable to FREDERICK P. PRO, Air Cargo Express, for Part 121 inspection and operational flight proving tests and Aircraft Improvement Program.

CECIL CARTER, Vice President of MBC, made out several personal checks on PRESLEY's account which were signed by VERNON PRESLEY for his son and were then converted into cashiers checks for the above stated amounts to cover these invoices. In other words, \$244,990 worth of checks were issued plus a personal check of \$17,500 which was cashed at the bank by PRO.

The first monthly payment for rent was not due from ACE until August, 1976. However, ACE had indicated an interest in another aircraft belonging to PRESLEY and an arrangement was again proposed by NIGEL WINFIELD. This arrangement was proposed on behalf of A. G. M. Financial Corporation which is the same organization previously submitted by PRO to replace WWP in the first contract. This latter corporation was formed by ANGELO MANNARINO of Miami, Florida.

A.G.M. sought to fill the same role occupied by WWP with regard to the Jetstar on another plane of PRESLEY's, a Dassault-Falcon. A similar type sale-lease back arrangement was extered into and VERNON PRESLEY gave personal checks to MANNARINO in the approximately amount of \$53,000 which MANNARINO subsequently cashed. PRO presented PRESLEY with three more checks drawn on the Coral Gables bank totaling approximately \$95,000 representing the first and eighty-fourth monthly payments under the sub-lease as well as a check for \$40,000 premium for the lease. Once again, some of PRO's checks were bosored by the bank.

A.G.M. could not secure funding for this arrangement. The deal was called off but MANNARINO still wrongfully retains the \$53,000 paid to it as a deposit.

Over the mext few weeks PRO made various representations to PRESLEY concerning the 121 Maintenance Program, including such things as the wings of the Jetstar had been removed and X-rayed for any faults and that tests had been run on the plane. PRO also claimed that at different times he had flown the plane on test with various PAA officials and it would be just a matter of days before the 121 certificate would be granted by PAA.

Section Section

A notice of default was mailed to Air Cargo Semanding immediate payment or repossession of the plane, and on October 11, 1976, a Telex message was received from Seven Oak Finance Limited, England, to the NBC, Memphis, which reads as follows: "With regards to Elvis Presley Air Cargo Express transaction, by the request of Mr. Frederick Pro, Seven Oak Finance, Ltd., has bank confirmation that Air Cargo Express has an account in excess of \$500,000 U.S. dollars. Regards, (signed) A.C. Scott-Brown, Seven Oak Finance, Ltd."

Although this wire was received and considered, no payments were received from ACE and finally, one of PRESLEY's pilots went to Miami and reclaimed the airplane. Upon its return to Memphis, the log book was reviewed and revealed that mone of the funds in excess of quarter of a million dollars which had been paid out up-grading and modifying the plane to qualify it for 121 Maintenance had been applied to the plane.

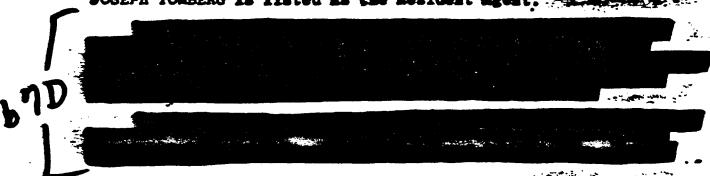

D. BEECHER SMITH, Attorney for ELVIS PRESLEY, had various conversations with PRO. As of July 18, 1976, PRO told SMITH that he had received the funds for the up-grading of the plane but that there was a purchase delay for the equipment and there was also a delay in the FAA procedures. SMITH had in his possession a copy of an article from the "Wall Street Journal" dated October 19, 1976. This newspaper reports the financial news of the country.

The article, entitled "Uncollectible Grafts On West Indian Bank Flood U.S. And Total Millions of Dollars," notes that the securities which are cashiers checks and Certificates of Deposit (CD), were issued by the Mercantile Bank and Trust Company which was formed two years ago in Kingston on the island of St. Vincent in the British West Indies. This article further notes that the bank, which never grew beyond a one room office, apparently is closed and its founder and a few other men are the targets of a spreading investigation by the U.S. Department of Justice.

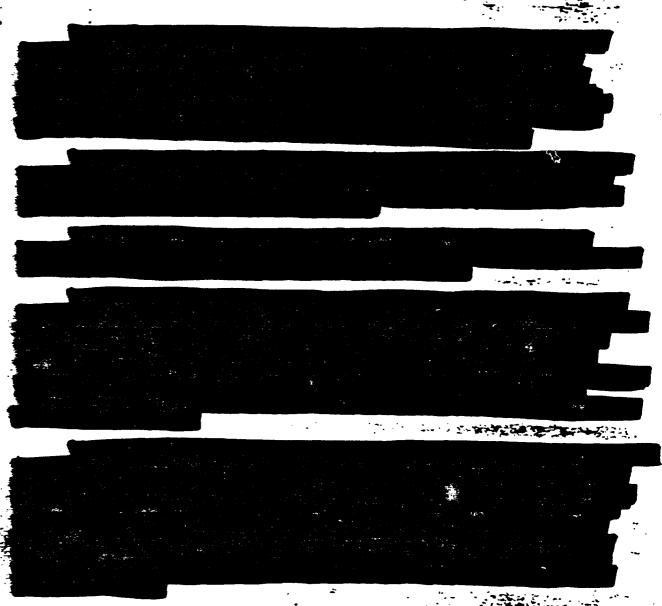

According to PRESLEY's attorney, he called Air Cargo to ask PRO for the keys to the plane in October, 1976. PRO claimed that he was getting a commitment that date and would be in touch and subsequently on October 4, called and told VERNON PRESLEY that he had \$200,000 coming in from overseas in Certificates of Deposit and that only one more test flight was required and the plane would be qualified within ten days. Shortly after this is when PRESLEY's bank received a Telex message claiming Air Cargo Express had an account of \$500,000 with the Seven Oak Finance Company, Ltd.

2

It should be noted that in March, 1977, records of the Secretary of State's Office, Division of Corporations, State of Florida, reflected that the Air Cargo Express, Inc., and been incorporated under the laws of the State of Florida on April 19, 1976. The authorized stock is 100 shares at no par value. The officers of the corporation are listed as PAUL V. TOERI, President; Secretary and Director GAIL OLSEN; Treasurer and Director FREDERICK P. PRO; and Director BOT E. SMITH. One JOSEPH TOMBERG is listed as the Resident Agent.

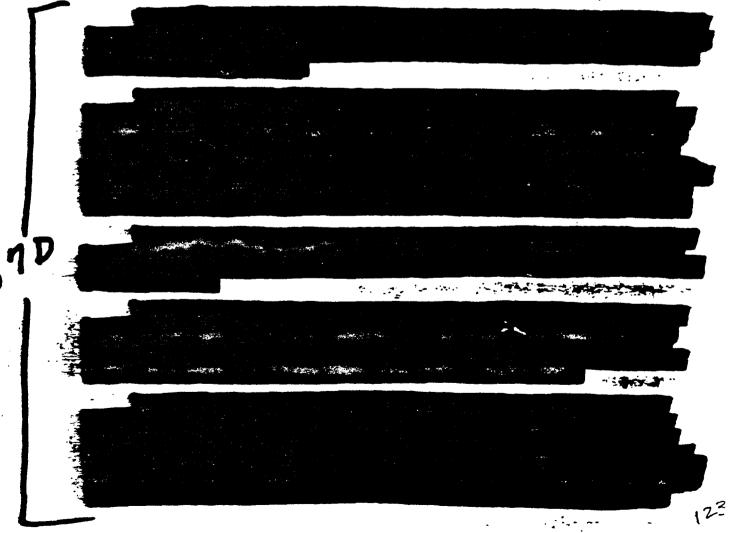

7

Through contact with RICHARD R. MEVILL, Chief, hir Carrier District Office #32, Federal Aviation Administration, Miami, it was determined that PAUL SCUDERI of Span East Airlines had told him that he, SCUDERI, had found a "angel" to take mare of Span East's financial problems and in early 1976, FRED PRO arrived on the scene. PRO allegedly took over eighty percent of Span East with SCUDERI retaining the remaining twenty percent.

The FAR 121 Program sets forth operating rules for commercial aircraft carriers. In order for an airplane to come under this program the company must place the aircraft on the operating specifications of their certificate and PRESLEY's Jetstar did not come under this program isassuch as PRO never made any attempt to put the Jetstar on Span East's operating certificate. In addition, the Port 121 Inspection and Operational Flight Proving Tests refers to the inspection and proving flights an airline must conduct on an aircraft placed under the operating specifications of their certificate. A representative of the PAA has to be present aboard the aircraft during these flights. MEVILL states that Air Cargo Express or Span East did not conduct any proving flights on the Lockheed Jetstar. There is no record of any work having been performed on the Jetstar to up-grade it and if it had been done it would not be credited since the plane was not on Span East's certificate and no documents, papers, inspections or anything else had been filed with PAA concerning this plane.

After the meeting with was concluded, KITIER telephonically contacted FRED PRO to set up a meeting for May 6, 1977. This telephone call was made from the Mayflower Ext.

TP 183-104

in KITZER's room. PRO met with KITZER, and and at the Essex House Hotel near the Mayflower Hotel at approximatel 4:20 PM or 4:30 PM through a period of time slightly before 6:00 PM on May 6, 1977.

while going to meet with PRO, KITZER advised and that was a good guy to know and if and ever ned trouble with the outfit, they should contact KITZER who would in turn contact and schedule a sit-down conference in New York to Iron out any problems.

A business card provided to and and by PRO indicated his full name as FREDERICK P. PRO and he was shown as the director, United States of America, of Trident Consortium located at 128 Central Park South, New York, Telex Number 12041, telephone number 212-757-8037. PRO was described as a white male, approximately 6'1" in height, weighing 190 to 200 pounds. He has graying hair and wears glasses. His build is heavy, and he is approximately 45 to 50 years of age. PRO alleges that he is an Italian.

gITZER has indicated that PRO is not the true name of the above individual.

upon initially meeting PRO, PRO inquired of KITIER as to whether it was okay to talk in front of to which KITZER replied that it was all right. Increafter, the following took place:

pro indicated that at the present time he handles approximately 150 telephone calls per day arranging deals produced by eleven individuals working as brokers for him through the United States. He indicates that he works from approximately 8:00 AM through 12:00 Midnight each day.

At the present time, PRO indicated he was operating Trident Consortium in New York City. PRO stated that the company appears to operate worldwide with PRO acting as the U. S. agent. PRO stated, however, that he owns and controls the whole corporation. PRO indicated that he intends to open branches in other countries and that with this arrangement, it would be easy to confirm various financial instruments via telex from foreign countries.

PRO stated that he conned ELVIS PRESLEY out of PRESLEY's Tri-Star aircraft. KITZER advised PRO that PRO had previously told him that he was going to get PRESLEY's aircraft and that KITZER had told PRO that was "mission impossible." PRO replied back that he had shown KITZER what "mission impossible" was and asked KITZER if he recalled that PRO had telephonically contacted him shortly after obtaining PRESLEY's aircraft. PRO indicated that immediately after leaving the ground in Hemphis, Tennessee with PRESLEY's aircraft he used the aircraft's air-to-ground telephone system to call KITZER and tell him at his home in Hinnesota that he had acquired the airplane.

After acquiring PRESLEY's aircraft, PRO then contacted either the First National City Dank of New York or the Chase Manhattan Bank in New York and obtained a \$1,000,000 mortgage on the aircraft. When the first payment came due, PRO indicated he shated with the proceeds and left the bank holding the aircraft. PRO stated that he told the bank they had bought themselves a plane. PRO indicated he had also given PRESLEY other paper but it was not specified what this was.

In regard to aircraft transactions, PRO indicated that he preferred to accept aircraft from individuals who desired to have their aircraft repaired. Instead of repairing the aircraft, PRO indicated he disassembled the aircraft and sold the parts.

According to PRO, his usual method of busting out a company is to take viable company assets which include both liquid and semi-liquid assets and to convert them to less valuable assets which only appear to be valuable. He diverts each flow and increases business expenses until bankruptcy gradually occurs. In short, he swaps viable assets for less viable ones.
