IIS: This is t report in this case, .vestigation being prec upon a considerable volum. of correspondence from the Buleau, which it is not deemed essential to reference in detail.

This report is being submitted in order to make available for immediate perusal the statements of persons interviewed during the course of this investigation. However, for the sake of coherence, certain investigative steps which have resulted in the obtaining of incomplete information will not be reported until the information can be set forth in complete form. No attempt is being made in this report to summarize the results of the investigation which has thus far been conducted.

It is noted that a memorandum for the Attorney General dated July 24, 1943 contains a statement that it will be essential to have interviews with a great number of the individual miners who worked at Mine "F" during the course of the alleged conspiracy. In order to inaugurate this phase of the investigation, contact was had with JOHN H. BCHNEIDER, Springfield, Illinois, who is presently an official of the Progressive Mine Workers of America.

SCHNEIDER made available the dues collection books of Local #54, PMA and he also made available an original copy of the PMA petition dated May 26, 1937

From these documents a list of approximately
462 PMA miners was obtained - which list, it appears - includes
all of the PMA miners working at Mine "B" who would be connected with this investigation.

Investigation as to date has revealed that the following men named in this list are dead:

SEABECK, FRANK BOOKER, TONY THARTINIUS, TONY SHITH, AUGUST lieDONALD, HARRY CASPER, LOUIS DARMON, GALE ~NUTAUT, PETER - SMITH, THOMAS - TROOP, CHAS. - DRAUGELIS, GEORGE ORANT, JAMES ~ OZELIS, JOHN - WELCAUKIS, PAUL GALOB, FRANK OZELIS, PETER, Jr. ~ WILLIAMS, HARVEY GATHARD, JOHN POTTER, THOMAS - ZABLOSKY, JOE GRIDER, CHAS. MARI, DONALD REEVES, EDWARD

Investigation to date has revealed that the following PMA miners on this list are no longer in or near Springfield,

-2- 000

Illinois, and accordingly, no attempt will be made to interview them unless subsequent developments indicate that this may be imperative in individual cases:

ALBERT, MIKE
BUMGARNER, A.
BRYANT, VM.
CRIFASI, STEPHEN
DAVIDSON, ERNEST
DI'BARTHOLOMES, DOMINIC
DRAGOULIS, VINCENT

FAFOZLIA, OTTO
FIFER, JOB
GALMAN, ADULPH
GENT, ANTONE VICK
GATHARD, JESSE
GRAHAM, PETER, JR.
GUZZARDO, JOE

GREZORICH, FTWNK
KANGER, ANDREM
KELLER, JOE
LAWLER, MIKE
HOKELOCK, ANDREW, JR.
POWELL, KIMER
TUCKER, JOHN
ZIONS, MIKE

There are set forth below the statements obtained from 154 PMA miners.

In order that the Bureau may be advised of the scope of the matters discussed with these miners, there is set forth bolow an outline of interrogation which was used in conducting these interviews:

Name .

address (residence and business).

Date and place of birth.

Citisenship.

Date, place and circumstances miner first joined any mine union.

Offices held in any union.

Relations between UMN and BISHOFF at Mine "B" prior to September, 1952.

attitude of this miner toward formation of PAN local at Mine "B", in-

Relations between EISHOFF and Local 54, PMf, between September 1932, and April, 1937.

a. Strikes.

b. Close-downs by management.

c. Attempts by ELSHOFF or FALCETTI to discredit PMW leadership by ramarks, by a hostile attitude in settling grievances, etc.

d. Expressions of purtiality or liking for UMV by management.

e. Attempts by management to persuade men to return to

Relations between PMV officials and PMN membership.

- a. Any sentiment among rank and file that local was racket rum.
- b. Extent of democracy in local any measures of compulsion to keep rank and file in line.
- c. Interest in union affairs attendance at meetings, etc.
- d. Attitude of rank and file toward convictions of PAN members in bombing cases.
- Financial angles special assessments, kick-back to local PAW officials, etc.

Relations between local 54 and UMN from September 1932 to April 1987.

- a. Did UMW ever set up a picket line at the mine?
- b. Did UMF distribute literature or have organisers at the mine?
- UMW, with particular reference to details of the activities of the following alleged UMW spiess

JOE WLEANESE
ANDREY SCHRELEVIOUS
DOMINIC-PASQUALE
PETE CARTER
FRANK AUSTIN
TONY PLOTON

John Cotton) Manias John Sirtout
George Jacasay
Emory Jacasay
Charles Bohanon
James Hale

Relations between management and UMF officials, including social contacts, etc., between September 1932 and April, 1937.

The wage scale controversy in the Spring of 1937.

- a. What report did PMN officials give rank and file on temporary agreement with ELSHOFF?
- b. Was there any feeling that PMW would be unable to get as good a scale as UMM?
- c. Was there any commotion at mine on pay days in april? Any temporary slow-downs or stoppages?
- d. What were the actions of the alleged spies during this period?

*

RE: JOHN L. LEWIS, ET AL.

- e. What was the attitude of the management on the wage question?
- f. What actions did PMW officials take to calm down the wage issue?

PMV meeting on night of May 11, 1937.

- a. Was this a regular meeting? If not, how were members notified?

 Any indication that only a select few were notified?
- b. What was the evidence presented against the fivealleged spies who were expelled?
- c. What did these men say in their own defense?

The morning of May 12, 1937.

- a. What arguments and discussions were there at the mine about wages? How and when did the men find out they were not going to get an increase that day?
- b. Did rank and file know about the expulsion of the five spies? How were they told? What was the general reaction?
- o. Why were coal cars being loaded short? Was there a growing sentiment to strike during the day?

 If so, why did they intend to strike? That is, was it because of wages or because of the five expelled spies?

PMW petition of May 26, 1937.

- n. Did this miner sign it?
- b. What explanation of this petition did PAN officials give?
- c. Were any threats, expressed or implied, made in connection with obtaining signatures to this petition?
- d. How were the signatures obtained? That is, house-to-house, union meeting, etc.

UMT petition in Summer of 1937, date not known.

(See a., b., c. and d. above)

RE: JOHN L. LEVIS, RT AL.

Unknown petition in Summer of 1937, date not known.

- a. Did this miner sign it?
- b. Who circulated it or sponsored it?
- o. Was it really a "wildoat" petition? That is, was there a sentiment among most of the men to go back to work regardless of which union the company dealt with?
- d. Who reported it to company officials?
- e. Date petition was presented.

Formation of new UMV local 7469 July 29, 1937.

- a. Was this miner approached concerning joining this local?
- b. Were there any threats or violence used to obtain members for this local?

General information concerning the Summer of 1937 - union meetings, "wildcat" meetings, statements by officials of both unions, threats, violence, statements by management, etc.

Attempted opening of mine on September 27, 1937.

- a. How did management give notice mine would be open?
- b. Had PMV decided in advance the attitude they would take if the mine opened under the UMV contract?
- o. When did picketing start?
- d. Did this miner participate in picketing?
- e. Did PMN import outsiders for picketing?
- f. Were any threats or violence used by PM7 leaders ship away from the mine premises to keep the rank and file in line?
- g. General information concerning incidents during the sit-down strikes.

Issuance of injunction in Federal District Court on December 9, 1937.

a. Attitude of rank and file miners to injunction.

Attempted opening of mine on December 13, 1937,

- a. How was notice given?
- b. Why did only twelve men show up for work?

RE: JOHN L. LEVIS, ET AL.

NLRB election on December 15, 1937.

a. Complete discussion of circumstances of election, including mechanics of election and events leading up to it. 'Note UMN' contention that the election was a fraud, being dominated by strong-arm tactics of PMW.

Attempted reopening of mine on January 4, 19384

- a. How was notice given?
- b. Why did only a few men show up for work?

General discussion of incidents between January 24, 1938 and November 6, 1939, while mine was closed.

Opening of mine November 6, 1939.

- a. What did rank and file understand about wage scale, etc.?
- b. What was attitude of rank and file toward inability of PMW to get a contract?

Period from November 6, 1939 to February 21, 1941, when election was held.

- a. All threats, violence, etc., by either side to force union membership.
- b. All efforts by both sides to secure new members by persuasion.
- a. All statements by management concerning union preference.
- d. All acts of favoritism shown by mine management.
- e. Did this miner sign membership cards for either or both of the unions in the Summer of 1940? It is noted both unions submitted a number of cards exceeding a majority of workers to NIRB investigator who was investigating the claims for representation.

NIRB election on February 21, 1941.

a. See election of December 15, 1937, above, for suggestions.

Re: JOHN L. LEWIS, ET AL.

INTERVIEW WITH

Illinois, was jointly interviewed at his resi-

dence on August 28, 1943 by Special Agents

He appeared reluctant to answer some of the questions propounded to him which he should have had knowledge concerning. This was possibly due to the fact that he is presently employed at Mine 'B' under the UMW. He also claims to be friendly with OSCAR FALCETTI. He is alert and presents a good knowledge of mine operations. He executed the following signed statement:

*Springfield, Illinois August 28, 1943

statement to and whom I know to be Special Agents of the Federal Bureau of Investigation, U.S. Department of Justice.

Illinois. I was born one at Illinois. I was born one at Illinois. I joined the United Mine Workers of America, referred to hereinafter as the UMW, in and I started working at that time in a mine named. I moved to Illinois in and worked as a member of UMW in the mine near until when I started working at Mine B near Springifield, Illinois. I am presently working at Mine B.

President of a local. Nine near which was under a PM. contract. I held thus office for about six months in This union will be referred to hereinafter as PM.

WI worked in kine B from about to about kay 12, 1937 when it shut down due to the strike. I did not go back to work at kine B, but got a job at kine k about October 18, 1937 as a Pki miner and worked there until about September of 1940. About September, 1940, I went to work in kine B as a member of the UMV. I have worked there continuously until the present, and am still working there as a member of the UMV.

N. A.S.

Ro: JOHN L. LEWIS, ET AL.

INTERVIEW WITH

Continued

"Elshoff, prior to 1932 got along very well with the UMT.

"In 1932 I was not in favor of the wage scale being lowered and I voluntarily joined the PM, and I feel that the rest of the miners at line B felt the same way. I did not take any active part in this formation.

"Everything was alright between Elshoff and PML between September, 1932 and april, 1937 to my knowledge and I was well satisfied with the management of the PML and the rest of the miners were satisfied with the PML leadership to my knowledge.

"I heard that Dominic Pasquale, Charles Bohannon and about ten other miners who were holding PLA as well as UNI cards and were organizing at kind B on behalf of the ULA and that was why they were expelled from PMA, but nowe of them ever approached me. I do not know which union the operator of Mine B was in favor of as I never heard any of them make any statements about it. I left the mine when the shut down started as previously mentioned, and did not have any first hand information on the matter.

"Between May, 1937 and October 1937 I helped for about one month with the PM. picket line at Mine B. This picketing was to keep UM/ from taking our jobs. The vote, as a result of the NLRB electing on December 15, 1937 showed UMF had only twenty-five members at that time.

"I heard that Charles B hannon and the other eleven men that were later expelled from the PMA for organizing for the UNA received money for organizing, but I never have been contacted by them and have no knowledge of the payment by UNA fo them.

"I don't know why Elshoff did not sign a contract with Platthen that union had a majority of the employees at mine B.

I have carefully read and fully understand the one and a half pages of this statement and it contains the truth to the best of my knowledge.

furnished the following voluntary signed statement:

"Springfield; Ill. August 25, 1943

Ill. make the following voluntary statement to and who I know to be Special Agents of the Federal Bureau of Investigation. We force, threats or promises have been made in obtaining this statement and I know that what I may say may be used as evidence in a court of law.

and I am a citizen of the U.S. which citizenship I obtained through my father, who was naturalized in Springfield, III. in about 1915.

I am now employed about Ill., as a laborer.

"I became a member of the UM# in when I was first employed in a mine as a miner. I droped my membership in when I stopped mining.

"I started mining again in and became a member of P.M.A. in of which union I was a member for 5 or 4 weeks. I dropped my membership in PkA when I stopped minning.

In the first part of I was employed by the III., for which mine I worked for 3 or 4 months, during which time I was a member of PMA.

In the summer of I was employed by Kine B, Springfield, Ill. and became a member of PKA where I was employed as a miner until May 1937 when the mine was closed.

"In the fall of 1937 I was employed at the Panther Creek Mine #6, Springfield, Ill., until Spring 1945. During my employment at the Panther Creek Wine #6 I was a mamber of PNA.

Re: JOHN L. LE.IS, ET AL

670

INTERVIEW WITH

"I was a sect. in a ".didcat" Union at Coal kine, Springfield, Ill. for about one month in the section of the s

"So far as I know the relationship between Lr. Elshoff at Mine "B" with PMA was good between the summer of 1936 and May 1937. I do not know anything about the relationship between Mr. Elshoff at Mine "B" and U.M.W. prior to 1932.

"Up until May 12, 1937 there was no trouble at Mine "B" and there were no strikes.

"So far as I know there were good relations between ELSHOFF and FALCETTI of Kine "B" and PMA during the time I was employed there, neither of whom ever mentioned union matters to me.

"So far as I know the members of PMA liked the union and were members of PMA because they liked the union and thought PMA could do more for them than any other union.

"I was never interested in union affairs, and attended only a few meeting of the union each year.

"The members of PMA thought the members of PMA convicted for bombing should not have been convicted as they did not get a fair trial. I cannot furnish any details concerning the attitude of the members of PMA concerning the conviction of PMA members in "combing cases as I was not interested.

*I cannot furnish any information concerning the financial operations of PNA, there were very few special assessments during the time I was a member of PNA.

"During the time I was employed at Mine "B" U.M. w. never attempted to organize the employees of Mine "B" in any way. No one ever attempted to get me to become a member of U.M. when I was employed at Mine "B". I never saw any employees at Mine "B" attempting to get any other employees of Mine "B" to become a member of UMw.

"I never saw any officials of UNT with the management of Mine "B".

"I know there was an attempt by union officials of PMA to obtain higher wages for the employees of PMA but there was never any trouble at the mine in April or May 1937 concerning an increase in the wage scale. None of the men alleged by PMA to be spies for UMA, the names of whom I do not know, ever said anything to me about an increase in the wage scale. So far as I

Re: JOHN L. LEWIS, ET AL

INTERVIET WITH continued

know emplowers of PMA were on the same wage scale as the employees of UMs in mines other than Mine "B". Neither the management of Mine "B" or union officials over said anything to me about the wage issue in April or May 1937.

"I did not know of a meeting of PAW on May 11, 1937.

"On the morning of May 12, 1937 I did not hear any discussion on the wage issue nor did I know of anyone who knew five alleged spies of UNW had been expelled from PMA. I did not sec or hear of any coal cars being leaded short on the merning of key 12, 1937. I did not know there was any trouble at kine "B" on May 12, 1937 until I was told by my boss to stop working. I did not know why the work was stopped on that day nor did the men I talked to.

"I cannot rember a petition of PMu of May 26, 1937 but I may have signed a Par petition of key 26, 1937 and cannot remember signing it.

"I am not able to furnish any information concerning Mine "B" subsequent to May 12, 1937 as I was not interested in the mine and never returned to Mine "B" to try to get work.

*I do not know of a U.M. 77. petition in the Summer of 1937 nor do I know of the formation of new Ukw local 7469 July 29, 1937.

"I received one or two notices that kine "B" was to have been opened subsequent to May 12, 1937, but did not attempt to get employment at Mine "b" as I was employed at Panther Crock Mine #5 and I was not interested.

On May 12: 1937 I was a member of PMA and satisfied with the union. I was not interested in becoming a member of any other union.

"I have read the preceding four pages which are correct an true to the bost of my knowledge.

Re; JOHN L. LEVIS, ET AL.

670

INTERVIEW WITE

was interviewed on August 25, 1943 by Special. Agents

He apportently will make a favorable witness. presents a good appearance, is intelligent and willing to testify. The signed statement furnished by him is set forth as follows:

August 25, 1943

make the following voluntary statement to and and whom I know to be Special Agents of the Federal Bureau of Investigation.

or. at Illinois. I was born of the United States.

"I first joined the United Mine Workers of America, referred to hereinafter as the U. M. W., in while I was employed at Mine B, Springfield, Illinois. I worked under the U. M. W. at Mine B. until 1932, at which time I was desire us on changing to the Progressive Mine Workers of America, referred to hereinafter as P. M. W. I continued to work under the P. M. W. until and including September 27, 1937.

"I left the U. M. W. ir. 1932, because I felt that the majority of the miners in Mine B. wanted to join the P. M. W., and because I felt that I would receive no benefit for working under a union which was controlled by John L. Lewis.

"The miners were assested 15 per cent of our salaries the first year we worked under the P. E. W., and though I felt that this was a large sum of money to be taken cut of my salary by a union, still I felt that the P. M. W. made such an assessment to build up their organization. This was all right with me. I hald no office either with the U. M. W. or the P. M. W. I have not been interested in union affairs. After the first year under the P. M. W., union does were cheaper thereafter than under the U. M. W.

"Conditions and relations were very good between local 54 of the P. M. W. and the U. M. W. from September, 1932 to April 1937.

"My last dur at Mine B. was on September 27, 1937. I received notice that the mine was going to re-open on September 27, 1937, because I saw a notice to this effect in the newspapers, and because the whistles at the mine blew. Therefore, I went to the mine on this morning to report to work at seven o'clock, oiled my machinery and just before eight o'clock on this date I approached the top boss at the mine in charge of all employees

Circles States

()

Re: JOHN L. LENIS, ET AL

above ground and whose name I do not recall. I asked him how I would work, and he replied that I would work under the U. M. W. At that time, I ciled machinery above the mine, outside of the

retail unit. This was my job. Directly after this conversation I left the premises of the Mine B.

I felt that the vast majority of the miners at this mine were members of the P. M. W. and I did not want to work under these conditions.

RE: JOHN L. LEVIS, ET AL

HI WAIVE H

was interviewed at his residence on Illinois, on the morning of August 26, 196 Special Agents

was born at has been in the coal mines since he was 14 years of age. He is presently mine near Illinois. employed at sidered by interviewing Agents as a good witness due to his appearance and apparent lack of mental capacity.

Upon interview executed the following signed statement:

"Springfield, Ill. August 28, 1943

I make the following statement to "My name is who have identified themselves scial agents of the rederel bureau of Investigation. No promises, threats or consideration of any kind has been made to me for this statement.

"I worked at Mine B for several years before 1932 until several nonths after the strike at Mine E in 1939. I joined the Progressive Mine Workers of America when they were organized in 1932. I was always satisfied with the way that union was being run. I never wanted to change to the United Mine Workers. I am still a member of the Progressives and am satisfied with them. The Progressives never asked me to do anything that I did not want to do. I was satisfied with them in every way.

"I was working at Mine B at the time of the strike. I do not remember whether I was working on the day of the strike or not. I do not know what the strike was about. I do not remember. I was not at the mine on the day in September when the men went back to the mine. I did go out there and stay a part of the time after the men started staying on the company property. I woted in the election held a few days after the election. No one bothered me or told me how to vote. It was a fair election as far as I know, and I voted exactly as I wented to votes.

"I do not recall but one time that they tried to open the mine. I was working on WFA part of the time. When the mine opened there had been some cave ins and falls. I did not see any evidence of any fire. Part of day JIM HALE asked me to join the United Mine Workers. He told me that all the men would be doing it and I might just as well. I signed the papers that

JOHN L. LEVIS, ET AL

INTERVIEW WITH

but I quit the mine a few days later. I quit because I did not like to be involved in any troulbe. Some of the men that I rode to work with had been bothered, their clothes cut and torn in the wash house. Some had been beaten, and so I quit rather than stay there and get in trouble. I didn't want to belong to the United Mine Workers. No one ever made me do anything that I did not want to do.

"I have read the above statement on this page and one other page. It is true and accurate."

INTERVIEW WITH

and and related his story in a clear manner, and appears to recall well events

around the time of the strike. It is felt that he would be a satisfactory witness to testify to those matters set out in the following statement which he executed:

Springfield, Illinois September 1, 1943

voluntary statement to and who have identified themselves as Special agents in the Federal Bureau of Investigation.
No threats or promises have been made to me to induce me to make this statement.

the U.S. in I became a U.S. citizen in 1915. I first joined the U.M.V. in and have never held any office in any union.

"I joined P.N.A. in 1932 when all the rest of the miners joined.
As I remember P.M.A. started after U.M.N. had tried to get us to work for
less maney. We had a vote and the ballets were stelen and the clostical
was no good. Also working conditions were not too good and the men
wanted a new union. After P.M.M. started things seemed better at the mines.
I do not remember what the men's feelings were when some members of
P.M.A. were convicted in the bumbing cases.

TONY PLOTCH, PRINK AUSTIN, JACANAY, MDY, BOHARION, JOHN SIKTOUT and some others who belonged to P.M.A. were supposed to be wirkers for U.M.M. I heard that these men were working for U.M.M. officials but they never approached me. I know that these men were kicked out of P.M.A. because they were working for U.M.M.

"I remember that our contract with Mine B, where I had worked since 1926, expired in the spring of 1937 and we were working under an extension. We were supposed to get paid back wages in case the new contract called for higher wages, this is what HM.A. officers told us that we would get the new rate from April 1. After we had worked for a while ELSHOFF refused to sign a contract.

when a trial was held and some of the non I nentioned before as working for U.M.N. were kicked out. As I remember, we had a regular neeting and after this, three or four nen were appointed to a kind of trial beard.

RE: JOHN L. LETIS, ET AL.

670 C

INTERVIET VITH

These men were charged with spying on our organisation and the trial board found than guilty. I was at this meeting and remember that these men were kicked out of the P.M.A. Some were expelled for a couple of years

and some for ninety years. Most of the members of P.M.A. know about this action, which was just before the strike.

Int the time of the strike I was a digger at nine B. On the day of the strike some of the follows didn't want to go to work with the spies. However, finally we all went to work but some of the men said lets load the cars short and lots of the cars went up without a full load.

"Seneche told us to ome up out of the nines that day, about two hours earlier than usual. Then I came up I learned that there was a strike. I guess it was because the nine let these spics work although we didn't have a contract.

Inftor the strike I signed a potition for P.M... I signed this at the Union Hall. I also think I signed another petition at my house, I think the prought it out. It was to show how many members P.M... had and I think it was for the Labor Relation Board. He one over made me sign, or threatened no.

and BILL SIRTOUT came once, and another fellow called JOE or SAM cure
They asked me why I should stay idle, if I sign we go back to work.
They had some kind of a card for no to sign, told me it was a membership card. They said if they got enough members the mine would open up.
They said if I didn't sign the mine might never open up. They did not threaten me.

During the summer of the strike the P.M.A. had lets of meetings. The officers told us that they hoped to open the mine that summer.

"I remember that they tried to open the mine in the fall of ... 1937. As I remember, there was a notice in the paper telling of this. On that day 14 or 15 U.M.H. went dawn in the mine, but no one else went down. If you wanted to go to work that day you had to go in the office and sign up for U.M.H. That is what a man by the mine teld ne, tur P.K.a. officers teld us not to sign anything. We come back to temporated a meeting and the next day about 325 of us went out and started a picket line. We stayed there until we were served with an injunction. We left, feeling that we had to, the law said so.

RE: JOHN L. LETTS, AT AL.

by (continued)

"I remember that after this they tried to open the mine again. The same U.M.T. men showed up and a few new U.M.T. men, I guess they came from another part of the State. I was out

there that day, not on company property but on the highway. We wented to see what would happen.

"Our President, OZANIC, went and talked to ELSHOFF who told OZANIC that only U.M. I. men could work. That is what OZANIC told us. The Sheriff made us leave that day, told us that 15 or 16 men could stay on the picket line but not any more.

"I voted in the NIRB election in December. A. P.M.L. official told us not to go down: and vote too many at a time, just 15 or 20. He told us not to talk to anyone on the street. The election was nice and quiet and no trouble.

"I remember that later on they tried to open the mine but no one would go to work, they wanted to open the mine under an open shop.

The P.M.A. men didn't want to go to work that way.

"In November, 1939 the mine opened up under an open shop.
Some mine official said that we would have another election, whichever one won the election would win the contract. I got a letter telling me to some to work and that I should be there in ten days or I wouldn't have a job. I went to work where I had been before, this section was all right. I guess that other parts of the mine had been caved in, Box 2 and part of Box 3.

These same fellows, some of the spies, came to my house to get me to join. They were nice, but told me that U.M.V. was going to win and that I had better join. In about July, 1940 I finally joined U.M.V. They asked me to come to a meeting and I did. I found the hall full of fellows, and thought that perhaps I had better join if all the other fellows were joining.

The only new men who were hired belonged to U.M.M. or else had to join before they could get a job. U.M.M. had organizers at the mine. They were supposed to be working but they weren't. I didn't know who they were. They were very friendly and used to go around and talk to all the men.

was interviewed by Special Agents
Although this man

relates his story in a clear manner, it appears that

he has no information of value to offer.

executed the following signed statement:

"August 30, 1943 Springfield, Ill.

make the following voluntary statement to both of whom have identified themselves to be Special Agents of the Federal Bureau of Investigation. No threats or prunises have been made to induce me to make a statement.

in I was born and came to the U.S.

in I became a U.S. citizen in and presently reside at springfield, Ill. I first started mining coal in about and joined the U.M.W. at about that time. I have never held an office in any union.

when the wine went over to the Proffessives in 1932 I think I was working for the state. I went back to work with Mine B in and as far as I was concerned everything was going along fine at that time. The union officers left me alone & I just went about my work and bothered nobody. I have never attended any union meetings—heither U.M.T. nor the P.H.A.

"In the spring of 1937 I heard some talk to the effect that our wage contract was to be renewed, but I do not know anything about any wage dispute. I am not a close friend of anyone in the mine and have never mixed with any of them as I live on a farm and come right home from work every day.

"I remember that on the day of the strike, which was in May of 1937. I went to work as usual & took up my regular job as a digger in I heard that this section caved in and I understand it has never been cleaned up to this day. I never went back to pick up my tools. I know Tony Plotch, PeterCanten, Frank Austin, but I do not know anything about their actions at the mine. I never heard any of the men talking about spies for the U.M.W. and do not know what caused the strike in 1937. I heard men say that they got a raw deal, but I do not know why the men went on strike.

"On the day of the strike Frank Austin was supposed to be my driver and I kept asking him to bring my powder, but he never did bring my

0

Re: JOHN L. LEWIS, ET AL

powder that day. I didn't know until we were on our way home that night that the mine was on strike. I do not remember ever signing a petition of any kind after the strike. Due to the fact Frank Austin didn't bring me my powder, I worked all that day but didn't make any money, because I didn't load any coal that day.

"Between 1937 and 1939 when the mine was shut down I went to work for the state. I went back to wine B in the fall of 1939 after I sot a letter from Elshoff. I only worked there about nine days when I was offered another job with the state so I quit the mine job. I wanted to work for the state as it was a better job and my back was hurting me a lot. I am now working at the Panther Creek Mine and am a member of the PM union.

"During the entire time I was working at Mine B I never had a bit of trouble. I was never threatened by anyong. As far as I'm concerned it doesn't make any difference which union I am a member of as long as I have a job.

"I do not have any information about the strike at the mine. have read over this entire statement of four pages, have initialed the first three pages and hereby sign this pages. This statement is true to the best of my memory...

"August 28, 1945 Springfield, Ill.

make the following voluntary statement to beth of whom have identified themselves to me as Special Agents of the Federal Burcau of Investigation. No threats or promises have been made to me to induce me to make any statement.

and presently live

I started as a miner during the last war and joined the
U. M.V. when I first started mining. I am still working at Mine B. In
1932 when the rest of the men joined the Progressive union I also went
over to the PMA and continued working at the mine. When the PMA first
started in Mine B all the men were satisfied with the Union and everything went along fine until the Spring of 1937.

"I never attended many of the union meetings so cannot state as to all that happened just before the strike. I am a driver in the west section of the mine. I know that a group men including JOE ALBANESE, PASQUALE CORTER, AUSTIN and others mentioned to organize for the U.M.W. I was a section of the union meetings so cannot state.

**The content of the mine of the union meetings so cannot state. I am a driver in the union of the unio

Prior to the time of the strike and after March 31, our union told us that we were to continue working and the new contract would be retroactive. Between april and the time of the strike I heard the mon talking about CARTER, AUSTIN and the others trying to stir up trouble and telling the men they didn't have a contract and asking them why they were working. The PMA leaders kept telling the men to keep on working and that they would see to it that they get what was coming to them. I do not know of anyone who was threatened during this period and I don't believe must of the men know that CARTER and the others were working for the U.M.W.

I do not know anything about what happened at our uni

RE: JOHN L. LEVIS, ET AL.

67C

(Soutinued)

on the night of May 11, 1937. I heard the next day that some of the nen had been kicked out of the union because they were really working for the U.M.W. On the norming of the strike I remember that

the men were complaining that the company wanted the men who had been expelled to go to work. The only men I remember socing was Flank AUSTIN. I noticed that as soon as the men started working that day they all started loading the cars short and it continued the rest of the day. About an hour before quitting time word was sent to us to come to the surface and when we got on top we were told that the nine was an strike. Our union officers told us to go home because they didn't want us to work with the spice. I can't recall any mention being made of a strike being called due to the argument over wages.

I remember that a short time after the strike, JOHN SCHURIDER came to my house with a petition for no to sign. This was a petition asking the company to recognize PMs as bost as I can recall. As I recollect the PMs distributed ballots among the nea & asked them to check on the ballot which union they preferred.

"During the summer there was a great many union meetings and these meetings were well attended by the men. I remember that one time it was annumed that the mine was to open, but only about 12 men shewed up. I remember that in the fall the U.M.A. had picket lines outside the mine and I took part in the picketing several times.

"In Dosember of 1937 there was an NIRB election in the Arsenal and the PMA won out in the election. I remember that in the December election the PMA men mot at the union hell and narched to the Arsenal in small groups. There was no violence and no strong arm nethods used by either side.

"I went back to work at the mine when it was respended on an open shop basis in November of 1939. I believe there was an article in the paper that the mine was to reopen and so I went to work. As far as I know there was no fire at the mine between 1937 and November of 1939. There were a lot of cave ins at the mine and it was only natural that there was a lot of cleaning up to do before the men could start leading coul.

"Men the non went back to work in 1939 they naturally weren't completely satisfied, but I think they folt that if they didn't go on the job the U.M.A. men would take their job.

67C

"From 1939 until 1941 the mine was being operated on an open shop basis. I was one of the last to sign up with the U.M.W. I heard that there was a lot of fighting on the surface after I would

go below for my job and that many men were beaten up, but I never saw any of it myself. Nobody ever really bothered me to join the U.M.W. but I heard that a lot of the older men were actually beaten up by the U.M.W. men. I didn't sign up until it became quite apparent that our whole local was going to sign up. As far as my perschal knowledge is concerned the company was neutral with regard to the unions. I know that it was the general opinion among the men that the company favored the U.M.W. men. It was always generally understood that the U.M.W. non get the best jobs and were allowed more privileges but I do not know the names of any U.M.W. men who were so favored.

"I have read over this entire statement of six pages, have initialed the first five pages to show that I have read each page and hereby sign this last page. I wish to state that this statement is true to the best of my memory and if called upon I would testify to the above.

INTERVIEW WITH

Springfield, Illinois, on the morning of August
1943, by Special Agents

and

is a native born American citisen, having

would make a good appearance on the witness stand. He is a large and strongly built individual. He is rather intelligent and understands well. He has good command of the English language, being able to express himself quite well. He is very definite about things that he knows, and would not be easily confused on cross examination. He is believed to be a good witness. Upon being interviewed, executed the following signed statement:

"Springfield, Ill_August 26, 1943.

My name is I make the following statement to and who have identified themselves to me to be Special agents of the Federal Bureau of Investigation. No promises, threats, or considerations of any kind have been made to me to make this statement. It is true and accurate, and I am willing to repeat any part of it in court if necessary.

January of 1941. When I first went to Mine "B" I was a member of the United Mine Workers because everyone had to be a member of the United Mine workers in order to get a job at that mine. It was a closed shop. In 1932 the Progressive Mine Workers of America was organized and I joined that union. It had a closed shop and I was a member of this union until I left Mine B. In 1936 and 1937 I was Union Steward at this mine, and was Steward again from 1939 to 1940.

Before 1932 when the PM of A. was organized there had never been any trouble at Mine B with the management. There was same dissension among the men in the mine with the UMI about the assessments, etc. but there was no real. trouble. Some of the men who had been disgusted with the UMI were tried by the Union and Elshoff fired them. Elshoff and the Union got along pretty well in those days.

Then the PMV of A was organized, we all were anxious to join, and none of us would go back to work until the men Elshoff had discharged were rehired. Them the PMV of A was organized every employed at the mine was in favor of this union. At least I never heard anyone dissent about joining the PMV of A. The PMV of A kept protty close to the men and stood up for them whenever anything happened. The PMV of A did this much better than the UMV had done. Elshoff did not like the PMV very much because it protected the men so much better. I never

JOHN L. LEWIS, ET AL.

670

INTERVIEW WITH

heard him say anything about it, but I could tell from the way he acted and the expressions on his face, etc., that he did not like the PMN very well. However, I nevver heard hi say anything about the UMN.

Twice in 1936, however, I did here resear Falcetti, the mine superintendant say that sconer or later bilithe men would be back under the UMT and once he said that they would be better off all together in the same union. He seemed to want that the men belong to the UMT but never said anything about it. I did not know much about what was going on amongst Elshoff and Falcetti, but these remarks were made in my presence. That was before the strike in 1937.

"In 1936 there were some men who had been causing trouble in the mine and had been tried by the Union, but Elshoff and Falsetti would not fire them. I was not at the trials, and did not hear Elshoff or Falsetti say anything about it.

"I went to the Union meetings regularly. They were held twice a month. The miners were very loyal to the Union during all the time that the PMN were working at the mine. Sometimes there would be over 400 men at the union meetings. Sometimes there would be only 200 or so, depending on the weather etc. Whenever there was a special meeting of the Union, almost all of them came. Special meetings were announced by placing a notice on the bulletin board at the mine.

of the other men were trying to other trouble at the mino. I did not hear any of them ask anyone to join the UMi but I did hear these three say to other men that the PMI contract was not a retroactive contract, and some other things that were not true about the PMI contract and officials. I also saw Tony Plotch handling a petition at the mine in 1936. I did not see that petition.

midrow Schrevevious, Domineo Pasqualo, Peter Carter, Cotton ananias, John Sirtout, Emory Jacaway, who were always complaining about the was the PMI was being run I did not hear any of the mon working there complain about the Union. They were all satisfied with the arrangments for wages, etc.

The day before the strike, or close to the strike, Falcetti gar a yellow paper that came out of the company office, and asked hi to read it to the men. There were copies of it for the men, but none of us took it. Dekartholomed road it, and it said something about the temporary contract with the mine not having a retroactive clause in it. We did not pay any attention because we know that it id have.

006288

Re: JOHN L. LEWIS, et al.

(continued)

MA couple of days pefore the strike was called, or the day before there was a special meeting of the Union. It was held in the day time because that was not a work day. At that meeting almost all of the

men at the mine were present. There were more than 400 present. I was there. At that meeting, we decided that we would not go back to work until Elshoff and Falcetti had fired the men who had been tried by the union and explelled. The next day none of us went down in the mine at all. We demanded to Falcetti that these men be discharged. I heard Falcetti refuse. He gave as one excuse that the men could belong ato any union that they wanted to. I do not know whei day it was that light cars were coming to the surface. I believe that it was the day before the strike. I do not know what reason there was for the light cars. I do not reall that there was any discussion about wages at the time of the strike. The refusal was to work with the 12 men who had been tried and expelled by the union in 1936. The day of the strike we stayed around and did not work. About the next week, we went out in the morning and watched to see if anyone came to work. About 300 of us were there at the roud on those mornings just withching. There was no picket line. Some of the men came to work, and a few went in, but not very many. We kept this up just a week or so, staying there only about an hour in the morning.

"Several times during the summer of 1937 after the strike, I went with the committee to the mine in order to try to get things fixed up to go back to work. Falcetti always refused to fire the men because of the Wagner act. He said that that act gave them the right to belong to any union that they say fit.

"In September when they started to open the mine again, we all went out to the mine to see who would show up. The first day the 12 men who had been expelled from the PMV union of me. We did not stop them. The next day, about 300 of us showed up and told Falcetti that if those 12 went down in the mine that we were going. We lined up in front of the pit to go down. None of us expected to go down but we were ready. The 12 men did not go into the pit, and we decided to stay right there on the property to see that the company would not put anything ever on us. Elshoff would not deal with the PMV and we were beginning to think that he was favoring the UMV. He did not sign any contract with anybody. We stayed on the property until the injunction. When the Marshall came with the injunction we left the property without any trouble. As far as I know Elshoff did not try to open the mine after the injunction. He would have announced it in the paper, and blown the whistle, but I never heard that he had tried.

"In May of 1937, ad few days after the strike started the PMT had a petition. Falcetti had told us that he had a petition of over 300 signatures of the men at the mine who wanted to go for UMi. I had heard that such a petition had been passed, but most of the fellows elaimed that it was a fraud. To show falcetti how we felt, we all lined up and wont

JOHN L. LEVIS, ET AL

(continued)

into Falcetti's office, and signed the peition right there on his desk. Falcetti stood there and watched us for a while, until he got tired of it, and walked out. I do not know of any other

petitions.

and we left the Mine B property until the Nine opened in 1939 I was unemployed for over a year, and could not find a job anywhere. I finally got a job at one of the Punther Creek Mines, but I could not get a good place and did not make enough money to live on. Hy mother was sick at that time, we had a big doctor bill, and a large grocery bill. The only way that we could settle up was to sell our home, which we did.

During the time of the strike I went out to the mine many times with the committee in order to try and get things straightened out and go back to work. Falcetti ignored us most of the time that we went there. He would talk with us, but would shake his head whenever we mentioned the 12 men and would then change the subject. I do not reall that there was any agreement with the Union as to opening the mine again in 1939. That was the first time he tried.

"I went back to Mine B a week or so after the mine reopened. There had been a small cave in and I could not get to my room. After it was oleaned up I went back to my same working place in the mine. Most of the men went back to the same rooms. I was mine stoward and heard the complaints as they came up. Although I did not have any trouble, I know that the Pall man were given poorer rooms etc. when there rooms petered out than the Uni men. Dirt was being dumped on the cars of the PAR men, their tools were being stolen, and they were boaten. Many times I was with the committee when they complained to Falcetti and Elshoff about the conditions, and they refused to do anything about it. They easily could have done semething. He would say that he did not know what he could do about it, and would say that he would send one of the bosses to check on it, but none ever did. I was in Falcetti's office almost every morning. The same thing happened every day. I never heard either Falcetti or Bishoff say anything about changing Unions etc. Many times when we went to the office, the UMI carmittee would already be there, and when we came in, they would quit talking. I do not know if the was taking care of their complaints or not.

"I do know, however, that after somebody joined the UMI that dirt was not found in their coal, that their tools were not being stolen any more, and they were soon taken out of their room, and put into a good room. That was common knowledge about the mine.

When the mine reopened, there was no evidence of any big cave in or fire that I saw. When I first went into the mine, about

John L. Lewis, by AL

^らブピー シッパ

(oonemued)

a week after it reopened, it was fairly pleas, and ready to work,

When the mine reopened got a job there as Air Checker. I saw him many times in the mine: All he was doing was going around talking with the men and trying to get them to change over to the UMW. To never had an Air Checker at that time for the 18 years that I worked there until got the job. There was practically no work to do in that position.

In January 1941, and some of the other men who had just come to the mine threatened to beat me up. Some of the Deputy Sheriffs stoped the fighting but did not do anything about it. I saw several fights there, and saw old men beaten and out up. I saw some of them get hit. In January 1941 I was framed in the theft of some coal cars and was discharged. I threatened to take the matter to court and make them pay for all the lost time I had. A couple days later they offered to reinstate me, but I had seen enough at the mine, the beatings on the old men, and all the trouble, and the times that they had started to try to beat me. I decided that I would not be able to go back and work there under those conditions, and so I did not return. I did vote in the NIRB election which was held shortly after that because I had been employed on the day that employees were elgible.

Many times in the mornings, when I was in the office with the committee, men we knew as good standing PMT men dame to the office and caked or work. Every time Falcetti would tell them that they were not hiring that day. A day or so later, some men that none of us knew would come and ask for employment, and Falcetti would hire thom. He would ask them what Union they belonged to, and they would almost always say, that they did not belong to any union. A few days later they would have UNFF cards.

In the fall of 1937 when the NLRB held an election among the employees of Mine B, there was no trouble at all. I do not recall exactly where that election was held, but I do recall that there was not trouble about it. There were serveral UMT organizers around. They did not eause any cloime or anything. The PMT organizers had not talked to us in a long time, because they know how we all felt about the Unions. There was no corecion of anything of that sort. The PMT men told all the men that they had a right to vote, and that they curic to vote. If the men did not have a way of getting to vote, the PMT men did find semebody to give them a ride. There were no throats about what would happen if they did not vote etc.

"There ore never any complaints by the members about the way to PMT was handling its findances, nor about the cificials of the third taking advantage of anyones.

O.

JOHN L. LEVILS, M. A.L.

I have hever seen any violence, or compulsion used by any of the PMN organizers or officials as Mine B.

I have road the above statement on this page and seven other typewritten pages. All the statements made in it are true, and soutain the whole story as well as I can recall it at the present time. It is all true, and I am willing to appear in court and repett any of these statements.

RE JOHN L. LEWIS, ST AL.

INTERVIEL WITH

Springfield, Illinote, was interviewed on August 26, 1945 by Agenta And

As is presently employed by and was born and was born admits no criminal resord. The pass very sockerative; showed willingness to furnish all informatical his possession, and stated he would be willing to testify if such were hecessarys.

gave the following signed statements

"Springfield, fline August 26, 1945.

and voluntarily to and an Special Agents of the Federal Sureau of Investigations.

No threats or promises have been made to me to obtain this statements.

I was born in III. I presently reside at

Springriold, 111

I joined the United Mine Workers in and never held any office in any union. I started to work at Mine B in und continued to work there until Nav 9, 1037

From the time Elshoff purphased Mine H until 1932 the relations between Elshoff and the U.M.M. were to the best of my knowledge satisfactory, and things ran along smoothly? In 1932 the minors generally were not pleased with the agreement which Lovis had signed with the operators in which he agreed to a reduced pay rate for the miners. miners had a vote among themselves and voted not to accept the Lewis agreement. Then the union of the Progressive Mine Workers of Smerica started up. I attended some of the mootings which were held by the minors and which resulted in the establishment of the P.M.A. I did not take any active part in the organization of the P.M.A., but I did Vote for the establishment the new union. The reasons I voted for the new union were that I was opposed to the himerous extra assessments of the U.M. T. and further I believed that the U.M.T. was getting too ercored as shown by the stealing of balluts and the numerous assessments and the sotion of Lewis in signing the agroement with the operators against the wishes of the miners.

REI JOHN L. LUTIS, ET AL.

(eontinued)

After the organisation of the P.M.A. and the secretablishment of its closed shop agreement with Mine B. things fan pretty smoothly at Mine B. Sclations between Elshoff and the which acomed to run smoothly

and there were no strikes to the best of my knowledge. There might have been an occasional work stoppage of various short times, but I do not remember any strike as such. The mine was asympt closed from by the management and I never heard of any attempts by Elsheff or Falcetti to discredit the P.M.A. leaders in any way. To the best of my brolledge neither the P.M.A. leaders in any way. To the best of my brolledge neither the P.M.A. leaders in any way. To the best of my brolledge neither the P.M.A. leaders in any way. To the best of my brolledge neither to the W.M.W.

Just prior to May 1937 I remember hearing several groups of men in the wash house at Mine B being talked to by Dominia Anarole and Tony Plotch who were trying to get the man to join the U.M.W.

The majority of the mambers of P.M.A. were satisfied with the way things were going and had no feult to find with the way the union was being run. In the few union (P.M.A.) meetings that I attended, any member had the the right to the floor at any time to say anything that he wished. However, I don't know too much about this because I was not too interested in union affairs and did not attend all the P.M.A. meeterings.

I don't know the attitude of the union or the members toward them because I was not too interested in union affairs. I do remember that there are no special assessments requested of the members by P.M.A., and I know that there were no kick-books to the P.M.A. officials. From 1932 until 1937 the U.M.W. did not set up a picket line or distribute any kind of literature, to the best of my moviedge. I do not know if U.M.W. had active organizers in Nine B, but I do know that I heard the following men talking to groups of miners at different times, trying to get the miners to join the U.M.W. Dominic Pasquals. Frank Austin. Tony Plotch, Cotton Angulas, and Jimmia Male. These men were P.M.A. members, but I think they were being paid by the U.M.W. I don't now if there was any social contrat between these men and the management or owners of Nine B.

"I do not know anything about the wage scale dispute in the spring of 1937 as I was ill and unable to attend any of the union meeting. However, I was working daily. As far as I know there was no feeling that the P.M.A. would not get as good a break on the wage scale as the U.M.M. would, but on the contrary I, as well as the majority of the men, was very satisified with the P.M.M. and did not want to have anything to do with the U.M.M. I do not remember any comportion at Mine or any temporary slow-down or stoppages.

JOHN L. LETTS, ET AL.

INTERVIEW HITE

continued)

evening of May 11, 1987 and received no notices of 18. I know nothing about the details of the strike which started on May 12, 1957.

In December of 1957 I feed a notice in a Springfield newspaper that an election was to be held at the State arsenel in Springfield for the purpose of determing which union would have the right to represent the miners at Mine B. No one talked to me about voting, and I went to the election of my own locard. I voted for the P.M.A. bear cause I thought that was the best union, and I wanted to see that union at Mine B.

In the fall of 1937 can of the P.M.A. told me that the mine was going to be reopened, and that the P.M.A. bad decided that if the U.M.W. men were allowed to work, the P.M.A. would picket the mine of the the the mine of the picket line, I decided to go with him and participate in the picket ing. To the best of my knowledge the picket line consisted only at members of local #54 of P.M.A. The P.M.A. did not threaten us in any way to keep us from working. The proper of the picket line was to keep the U.M.W. men from working, and not to keep the P.M.A. men from working.

A couple of days before I left Mine B on May 1987. I recall that I signed a petition given to me by a P.M.A. men. I don't recall what the petition was for. I think it night have been a petition
to the operators to discharge some miners, ut I cannot swear to this.
I did not sign any other petition after that time. I was never
approached by any U.M.W. organizer for the purpose of joining the
U.M.W.

1957, and did not go out to Mine Bagain until late in 1959. At this letter time I saw a notice in a daily paper that Mine B would reopen, and I thought that I was well knough to exart mining again. I wone out to the mine and talked with Falcetti who told me that my name was not on the list of men to be . mployed. He did not give me any reasons for my name not being on the list. After a short conversation, Falcetti told me that he would replit 50/60 with me and put my name in the middle of the list. He gave me no reasons for this proposition. Falcetti did not ask me if I was a member of P.M.A. and did not say anything about joint the U.M. Some time tor, I don't remember how long,

ifforwation he can express he self well and would not be easy to confuse on cross examination. He makes a good appearance. He furnished the information set forth in the following signed statements

Springfield, 111 august 29, 1943.

I make the following statement to and who have identified thems selves to me to be Special Agents of the rederal Bureau of Investigation. No promises, threats or consideration of any kind has been made to make this statement. I am willing, if necessary to appear in court and repeat any part of this statement.

I was employed at kine B from three or four years before 1932 until My I2, 1937. I was employed there at the tile that the Progressive Mine Workers of America was organized. I am still a member of that Union. After the Progressive Mine Workers were organized. I was satisfied with them in every way and did not want to change Unions. At the time of the strike I was satisfied and did not want to change. I was working at the line at the time of the strike. I was not at the meeting held the night before the strike. On the day of the strike I was below. I was loading full cars and knew nothing at all about a strike. When I came up I saw that there had been quite a few small cars loaded that day. I was surprised to find that a strike had been called. I do not remember exactly what the strike was called for, but I think it was over the fact that the company would not fire some men that the union did not want.

I stayed out at the mine in the mornings for the next five or six days after the strike started. I do not recall signing any petition for either union at that time. I was satisfied with the Progressive mine Workers of Imerica.

"I heard that Eighoff had signed a contract with the United Mine Workers for the mine. I also heard that a new local for the thited Mine Workers had been organized for Mine R. No one asked me to join the United Mine Workers at any time. I was not at the mine the day that the picket line started in September, but I came

INTERVIEW NITH out the poxt day and stayed at the mine most of the time that the picket line was in progress. He was

but the men who had worked at line B were on the picket line while I was there.

ifter the injunction I left, and I got another job at the section for kine B was held. I woted in the election. No one told me how to vote or tried to influence my vote in any way. I voted exactly as I pleased. It was a fair election as far as I know. I only heard of one attempt to reopen the mine while it was closed. That was in September 1937 when the picket line was ormed. I got a notice that I could go back to work at Mine B when it has reopened, but I had a job and did not want to change.

by have always been satisfied with the Progressive kine forkers of Imerica.

It is all true and accurate, w

RE. JOHN L. LE IS, ST 43

IMPLRYIS THE STATE OF THE POINT OF THE POINT

Swin field, Illipois, by Special wents is able to speak bullish well although us 18 ve no about conditions line has of May 12, 1937. Sould take a good witness as to the information furnished in a state on by him.

The following statement was obtained from

rspringfield, 111. August 27, 1943

the following voluntary statement to and to the following voluntary statement to the following voluntary statement to the following and to the special Alents of the following threats of investigation. No force, threats or promises have been pade in obtaining this statement is know that what I may say may be used in a court of law.

Panther Crack Coal kine / as a track lan and I have been employed at the Fanther Crack Find since Decomber 11, 1741.

of U 12. I have been emplo d as a miner in III, since and was a mander of U M 7 until Sept. 1932 and I have been a need of F 2 since Sept. 1932.

"I have never held any offices in any union.

*I am unable to neke any statement and to the relations between Blahoff of Wine "B" and U II 7 prior to Sept. 1932, as I was not employed at Wine "B" during that time.

I was in favor of PM being formed in Sopt. 1932 as I thought U. W. a dishonest union. The reason I thought U. H. Was a dishonest union was because I heard U.M. officials stole the votes cast in 1932 concerning the change of vago scale. I took no active art in the formation of Plan

tween the Summer of 1935 and May 12, 1937 I never saw or heard anything which would indicate the huma, ment of Mine "b" word not in favor of 1935 and May 12, 1937 there were no strikes at Mine "B", by the hand count. There were no attempts by the panal ment prior to May 12, 1937 to persuade me to become a member of U. K. W.

BE: AND L. LE 13, ET AL

INTERVIE 1TH I LIKE V and bay considered in continued) a ponest union since became a backet in Sopt. 1912. Since I have been further of P N a I have not had any unusual special assessments upde a class a

I took no interest in the combing cases and I an dnable to make a state and as to the attitude of other wind is of P a concernial talk case.

Between the Summer of 1935 and May 12, 1937 W M, did not set as a picket line at Nine "B", or distribute any literature at the ride. A Prior to Ma 12, 1937 he one contacted me at Mine "B" in an effort to convert me from F 1 1 to W. M. I did not know of any alleged W M I spice at Mine "B" prior to april 1977.

I do not know of any control ray concorning the ways scale at line Bo in the Spring of 1937. So for as I know employees at line Bo were on the same ways scale as apployees at B in mines).

About two days prior to Pay 11, 1937 a Board tember of a notified me that A special meeting was to lave been held on the nint of lay 11, 1937 to consider expelling some members of PM. So as as I know all the neighbors of 11, at Mine B were notified of the neeting and there is a language of 12 at Mine B were notified of the neeting and there is a language of 12 at Mine B were notified of the neeting and there is a language of 12 at Mine B were notified on the nint of lay 11, 1937 a Board Hember of 11 A and two or three other sectors of P.

the names of whom I do not know, advised those attending the persons that John Ananias, andrew Schrelovichis, Tony Plotch, Emory Jacamay and Charles Bohamon were friendly with the Lana ment of kine MBW and that they were spies for U k ... that they were attempting to overthrow the P k at kine "B" and replace P k k with U k . A vote was taken to expell the above fix named cersons and almost all resent voted to expell the five persons named above from P k k. The five above named persons were present and did not say anything in their dofense.

On the morning of lay 12, 1937 I reported for nork as always and before I entired the nine I was told there was going to be a strike. I did not know why there was a strike and I did not ask why there was a strike. I returned home from the kina immediately and did not wait to talk to my of the end of about the strike.

I si med the Fil. petition of day 26, 1937. I was told that the petition was for the purpos, of petiting an increase in the wage scale signed the petition voluntarily in the headquart s of Pria. I do not how other implies were obtlined on the petition.

RE: JOHN L. LEJIS, ET AL

IMTLRVIE TITE (continued)

"I did not sign a U M petition or any other petition in the Summer of 1937.

"I do not know of the formation of a new U M I local 7469 July 29, 1937.

"I attended some P N A meetings in the Summer of 1937, but I do not rember that took place. I was not threatened at these meetings. So far as I know there was no violence in the summer of 1957.

"Sometime in September, 1937 I was informed that P M L had a picket line at Mine "B". I went to Mine "B" as a picket about four days after the picketing started, as I thought I would enjoy acting as a picket. I wanted to act as a picket and no one throutened no if I did not act as a picket. There was no force or violence when I was a picket. I became sick after about a month and a half of picketing and return home. While at home I heard an injunction had been obtained to prevent picketing of Mine "B". I am unable to make a statement as to the attitude members of F M A took toward the injunction as I took no interest in it. No pickets were brought in, all pickets were local.

*I did not know of an attempt to open Hine *B" Dec. 13, 1937.

"I voted at the N L R B election Dec. 15, 1937 for P M A. The election was fair and no threats were made to anyone. So far as I know the miners of thine "B" went to vote voluntarily and no one was carried to vote by F M A.

"I did not know of an attempt to open Mine "B" on Jan. 4, 1938.

"I was employed by the soal Mine in the first part of 1938 as a miner and I did not take any interest in Mine "B" after I was employed at the Mine, therefore, I am unable to furnish any infornation subsequent to the first part of 1938 concerning Mine "B".

"I received notice to report for work at Mine "B" in Nov. 1939, but I did not report for work as I was employed, nor did I take any interest in the opening of the mine.

"I have had the proceeding five pages read to me and the statement is true and correct to the best of my knowledge."
